## Melody Four Hit Top Talent Spot

The Melody Four, a quartette composed of Chuck Elliott, Ronnie Elliott, Ferris Kinsaid and Jimmy Schoepel, was awarded top place on Malcolm Millar's Talent Scout Show by a capacity crowd at the Prince Theatre, Tuesday night. With horse play and harmony the boys took the house by storm.

A team billed as Velma and C. W. came in for second place. C. W., a long lanky chap in a blue western shirt and the tiny Velma, less than five foot tall, with an offering of two numbers.

A tap dancing trio, billed as Pam Boe, Barbara Hall and Loris Rosenberg, came in for third place. Garbed in sparkling clothing with top hats and canes they offered a tap dancing novelty that gave them this spot.

Others on the bill were: Edwina Humphries, singing two numbers, which the writer felt was not suited to her personality, Ledora Crosby by doing a "Can-Can" which drew a healthy hand.

Guest stars were Jimmy and Billy Cowart on steel guitars and Lamar Farmer, singing to numbers.

An extra feature from Betty Mitchell's Dance Studio was billed as "The Can-Can" and was a startling novelty under special lights.

## Belcher Takes Gavel Pahokee Rotary Club

Bascom A. Belcher, new president of the Pahokee Rotary Club and other new officers of the club were inducted and assumed their duties at the Thursday luncheon meeting held last week in the Woman's Club building. B. Elliott, past president of the club, was the installing officer.

The new president briefly outlined club plans for the coming year and presided at a session of the executive board following the luncheon.

Elmer (Babs) Upthegrove was welcomed as a new member of the club. A. E. Kirchner, Nat Taylor and Bob Lanier represented the Belle Glade Rotary Club as visitors. Bruce Yancy of Lakeland was the guest of F. M. Shaughnessy.

## Cernea Transplant For Herman Mills

In a joint effort on July 4 the Canal Point and Pahokee Lions clubs served a barbecue from which they realized \$308.47 profits. Out of this amount the Clubs pledged \$200 for hospital expenses for 11 year old Herman Mills, Pahokee, who underwent a cornea transplant in Tampa on Thursday of last week. Herman has been nearly blind for years and can only tell daylight from dark. The Lions clubs under the direction of Sgt. Butch Heidt have helped Herman buy clothes and other things needed during the years while he has attended the St. Augustine State School for Blind.

For years Herman lived with his parents next door to Pahokee Mill and Supply but recently the family moved to the settlement just off Bacom Point Road near the airport. He is the son of Mr. and Mrs. Grady Mills.

Dr. Forbes of Tampa, who performed the operation on Herman, said it would be two weeks or more before it is known how successful the operation proves to be. Herman's many friends in the Pahokee-Canal Point area are wishing him all the luck in the world.

## Five Houses Damaged Over The Week End

A severe case of vandalism in Pahokee took place Saturday night when ceilings were knocked out of five new houses under construction in Pahokee's newest subdivision, Ridgecrest Gardens. Persons climbing the damage climbed into the attics of the newly plastered houses and knocked down the plaster. Places in the walls were also gouged out, and porcelain on some of the bath room fixtures were reported cracked, and knocked off.

Wiley Tillis, in charge of construction, said the damage would run into \$1,200 or more.

Police Chief Leon Guthrie said the department is working very hard to find the offenders and bring them to justice, but as yet no arrests have been made.

The subdivision is being developed by Pahokee Builders and all five of the houses damaged, have been sold. A sixth house is under construction, but was not far enough advanced to be damaged badly.

## Funeral Services For Mrs. Barfield

Funeral services were conducted for Mrs. Sarah Ann Penelope Barfield, 87, of Pahokee, at the First Methodist Church in Pahokee Tuesday at 2 p. m. The Rev. A. D. Houghlin, pastor, officiated.

Mrs. Barfield, who died at her home here Saturday, came to Pahokee with her family 35 years ago when this section was a rugged frontier.

She is a native of Florida and was born in Volusia county, Fla., March 11, 1868, the year the ordinance of secession was repealed and Florida was re-admitted into the Union.

Her family had claimed Florida citizenship for two generations before she was born, her paternal grandfather, Bryant Osteen, having been born in Florida during the Spanish rule. Both her father, W. J. Osteen, and her grandfather fought in the Confederate Army. Mrs. Barfield, who was reared during the reconstruction period, had experienced frontier life before coming to the Glades.

She lived to see, not only the transformation of the Everglades from a sub-tropical jungle to an agricultural empire, but the development of the state from a pioneer settlement into a prosperous state of big cities and famous winter resorts.

Mrs. Barfield is survived by two daughters, Miss Lulu Barfield of Pahokee; and Mrs. Myrtle Roberts, of West Palm Beach; one son, Charles R. Barfield, also of West Palm Beach and one sister Mrs. Hattie Kilpatrick of Christmas, Fla.

Burial was in Woodlawn Cemetery with Wetherington's Funeral Home in charge of arrangements.

## Kenny Mock Talks About Breakwater

K. C. Mock of K. C. Mock and Associates, engineers for Pahokee's proposed breakwater, was guest speaker at Pahokee Lions Club Tuesday noon. He explained something of the size and construction of the breakwater. He was introduced by Leonard Dobrow. Frank Thompson was in charge of the program.

During the business session J. M. Elliott reported \$308.48 cleared on the barbecue and drink stand, sponsored by the Pahokee and Canal Point Clubs at the July 4th celebration. Half of the proceeds goes to Canal Point club, which gives each club total of \$154.24. The proceeds will be used for an eye operation for a local boy, in an effort to restore his sight.

## STANLEYS AT PENSACOLA

Lieutenant (J. G.) and Mrs. Eddie Stanley, formerly of Coronado, Calif., are making their new home in Pensacola where Lt. Stanley has been ordered to enter the Navy's Flight Training program on July 17.

Mrs. Stanley is the former Lois Echols, daughter of Mr. and Mrs. Grady T. Echols of Canal Point. Lt. Stanley is the son of Mrs. Ralph C. Stanley of Pahokee. The Stanleys are now at home at 7 Cypress Street, Buena Vista, Pensacola, Fla.

## Legion Groups In Joint Monday Meet

Pahokee Memorial American Legion Post and Pahokee American Legion Auxiliary met jointly Monday night for a pot luck supper and meetings. Mrs. Betty Heidt, president of the auxiliary, presided at the business session of the auxiliary and A. E. Early, commander of the local post at the Legion meeting.

Legion members voted to complete the barbecue pit which has been under construction for several months, and to beautify the grounds around the building.

Hunter Latham and Jim Seay, representatives to Boys State in Tallahassee, gave reports on activities there. They were introduced by Commander Early.

## Pahokee Joists For Governor Mansion

Steel reinforced concrete joists manufactured in Pahokee by Shirley Brothers, Inc. are finding their way around the state into many prominent buildings. Contract let in Tallahassee for the new Governor's Mansion specifies concrete joists from the widely known Pahokee concern. The Shirley concern has won an enviable statewide reputation as manufacturers of one of the strongest and finest concrete joist to be found on the American market today.

Not too long ago a new dormitory erected at the University of Florida in Gainesville used Shirley joists. Class rooms at Florida State University in Tallahassee have Shirley joists in them. The recently constructed Seminole County Hospital in Sanford used the Pahokee concern's product.

Into the Governor's new mansion will go 1750 lineal feet of 12 inch joists manufactured in Pahokee. Youngsters from Pahokee in attendance at Florida State University can point out the new mansion and tell their friends that integral parts of its construction originated in their home town.

## Will Occupy New Church Building

Officers and members of the Pahokee First Methodist Church School are planning to move in the near future into the south wing of the new \$75,000 educational building now under construction.

The installation of doors and windows, plastering of walls and other interior work is now under way on the south wing which is expected to be ready for occupancy the last of this month. This wing will provide classroom facilities for several departments of the school from the nursery to the Senior MYF, and will be the first unit of the new educational plant to be completed.

To date \$40,262.63 has been raised by church members for the construction of their new building, according to Mayor Lewis. Friend, chairman of the building committee. The construction work is under the direction of Joe Casseluis, Belle Glade contractor.

Manning I. Keen and son Richard have returned from a family reunion in Abbeville, Ga., and a trip through the Great Smoky Mountains.

## County Millage Is Shaved By Board

The county commission this week placed its stamp of approval on its tentative budget for the coming year calling for anticipated expenditures of \$10,143,925 and setting the tax levy at 13.62 mills.

Despite the fact that county operational spending is up about \$1 million from last year, the board managed to shave .01 mills from the last years tax levy. At the same time, the commission began study of a new bond issue to be used to finance a capital improvement program and to be paid through validation of certificates of indebtedness.

The new bond issue—expected to total \$725,000—will pay for construction of a new county children's home; furnishings for the new county office building and the new wing of the court house; an additional story on the new office building and other associated phases of the boards building program.

The county's operating budget for the coming year called for expenditures of about \$8½ million with the largest increase going to the general fund.

Included in this year's budget, the commission said, is a \$75,000 appropriation for establishing a county zoning department—a function voted by the legislature earlier this year.

Also included is an additional \$110,000 for the county agricultural and home demonstration section. The increased costs of law enforcement was cited as one of the reasons for a boost in the fine and forfeiture fund. As an example, the commission pointed to the appointment of four deputy constables during the past year which coupled with the four regular constables, draws heavily on the law enforcement funds. ## Forest Industry Continues To Boom

TALLAHASSEE—Florida's vigorous forest products industry continues to boom, according to income figures just released by the Florida Forest Service. The report shows that the industry contributed \$368 million to the State's economy in 1953. That's \$45 million, or about fourteen percent, more than in the preceding year.

The \$368 million dollar figure represents the wholesale value of primary products without any re-manufacture.

The wholesale manufactured value of pulpwood at \$248 million makes up two-thirds of the total, lumber accounts for another seventeen percent, and wood naval stores seven percent. Lesser contributors, in decreasing order of value, were veneer, fuelwood, poles and piling, gum naval stores, hewn cross-ties, fence posts, and cooperage (wood used for barrel staves).

The forest industry payroll went up thirteen million dollars to \$111,592,000 in 1953, most of it to workers in the pulpwood industry. Stumpage value of timber harvested (value of timber as it stands uncut in the woods) was up nineteen percent in 1953 to \$30,327,600. Most of that figure represents the standing value of sawtimber harvested.

### Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

An immediate overhaul of the county's tax structure and reassessment of suburban property was suggested this week by the West Palm Beach Board of Realtors.

In a letter to the county commission, the board pointed to what is considered inequities in the present tax assessment plan and urged the commission to make a comprehensive review of the entire county tax program.

County assessments are levied by James M. Owens, county tax assessor, who will receive a copy of the realtors letter to the commission.

The realtors called attention to the growth of the county and the necessary increase of operational funds and stated "urban property—notably investment and other non-homestead property, can no longer be expected to carry the tax load for the entire county."

Commissioner Lake Lytal noted that other counties in the state are facing similar situations and declared "something must be done."

The commission was able to meet one of the realtor's requests—that no increase in the tax levy be made this year. The board Monday adopted its new tax levy of 13.62 mills which is .01 of a mill less than last year.

In other actions this week the commission:

Cancelled its July 18th meeting since three members of the board will be in Virginia attending the annual convention of the National Association of County Officials.

Approved payment of \$7,700 to the City of Delray Beach as the county's share of a road project in that municipality.

Made plans to bond five members of the county's payroll department in accordance with use of facsimile signature and new payroll machines.

### Cinematic Chatter

By Malcolm Millar

Hello everybody! Phil Carey successfully meets Hollywood's current penchant for opposing its big, good looking male stars with big, good-looking heavies, the better-looking and the bigger the heavy, so reasoning goes, the better the star looks by contrast when he bests him (1) with the girl, (2) in the inevitable fist fight and (3) in the gunblazing climax. For the present he goes along with the idea because every picture he makes brings him that, much nearer, he says, to being the kissable hero instead of the hissable heavy. Before coming to Hollywood, Carey was considered a comedian and, he says, force of habit gives him some bad moments during his picture making; he is inclined to take even the most dramatic scenes with a twisted grin. But, to Hollywood, that makes him the most menacing; the villain who grins is twice as evil as the one who just looks ferocious. Carey's worst moment in his screen career to date occurred through no fault of his own; it was the time he tested for a role with Gary Cooper, and studio executives noticed he was a full inch taller than the tall Gary. They chucked him out. See you at the movies—Mal.

### Neither Rain Nor Hail ... Nor Broken Boxes!

Red Fowler, local R.F.D. mailman, got an English car—with a right-hand drive so he can stuff mailboxes from behind the wheel.

"It's great!" Red reports. "But it would work a lot better if all box holders would follow regulations. A mailbox should be 49 inches high, on the right of the road... within reaching distance from a car window. If one is knocked down, the owner should make repairs pronto."

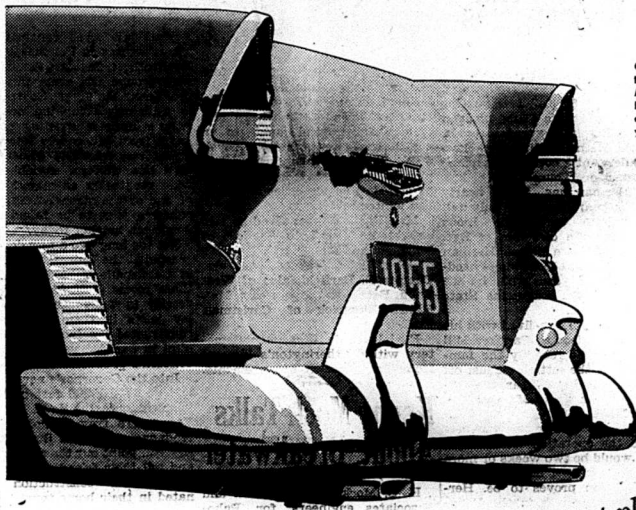

Come to think of it, Red is pretty good about his obligations—delivering packages, supplying

stamps, cashing money orders—saving us trips to the Post Office. Let's fix up those boxes so he can get his chores done fast.

From where I sit, obligations always work both ways. For instance, I figure that I'm obliged to respect your right to enjoy your favorite beverage—be it coffee, tea, beer, buttermilk or whatever. Why? Because I'd expect you to do the same for me. The Golden Rule should be followed "to the letter" by everyone.

Twin Pipes that play sweet music!

## Chevrolet's "Super Turbo-Fire V8" with 180 hp.

You can spot this one by the twin tailpipes. No matter what you drive, you're going to see twin-exhaust Chevrolets pulling away—in traffic, on the toughest hills, on the long straightaways.

... Unless you have a "Super Turbo-Fire V8" of your own. And then you'll know what it's like to pilot the car that sets the pace for everything else—and doesn't pause to read the price tags!

What makes the Super scat? Chevrolet's superb valve-in-head V8, with the shortest stroke in the in-

dusty, the most power per pound, and the only 12-volt electrical system in its field—all this plus a four-barrel carburetor and free-breathing twin exhausts.†

Want to sample this silk-lined cyclone? Just give us a call, any day this week, and we'll be proud to show you just how hot a V8 can be.

\*Optional at extra cost.

†Station wagon models have single exhaust pipes.

## Will Build Second Large Warehouse To Store Surplus Florida Sugar

The United States Sugar Corporation began construction last week on a second large warehouse which it has been forced to construct for the storage of raw sugar as it cannot be sold under present marketing restrictions. Last Spring the first warehouse was built at a cost of \$230,000 and now holds 20,000 tons of sugar. The structure now being built at a cost of \$125,000 will hold approximately 14,000 tons and will be ready for the next harvest season. Florida sugar producers have appealed to Congress for revision of the present Sugar Act to permit the sale of thousands of tons of sugar as it was produced on the acreage allotment set by the government. A congressional committee is now holding hearings on the question in Washington. Floridians are urged to write their senators and congressmen urging that they support S.B. 1635 and H.B. 5413 introduced by Congressman Rogers.

**Important thought to keep in mind:**

There's no need to worry about stalling in hot-weather traffic; no need to worry about balky, hot-engine starting! Just fill up at your Gulf station with New Super-Refined Gulf NO-NOX—the gasoline that's made with evaporation control to prevent vapor-lock. And always protect your engine with New Gulf-pride H.D. Select, the motor oil that controls carbon.

**New Gulf No-Nox Gasoline** delivers not just the highest octane but **full working octane** because it's super-refined to burn clean

See what a difference Gulf super-refining makes. Gulf takes out the "dirty-burning tail-end" of gasoline—at the refinery—to bring you new, clean-burning Gulf NO-NOX.

NO GASOLINE, no matter how high the octane, will let your engine deliver full power performance—mile after mile—unless it burns clean. That's why it pays to always use new NO-NOX. Gulf NO-NOX is the clean-burning fuel that gives you full working octane day in, day out. In addition, you get...

- more complete engine protection
- extra gas mileage in short-trip, stop-and-go driving
- freedom from vapor-lock, engine stumbling and stalling
- no knock, no pre-ignition—even in today's high-compression engines

Now! For the ultimate in working octane performance, always use Gulf's super-refined gas-oil team...New Gulf No-Nox Gasoline and **New Gulfpride H.D. Select Motor Oil**

The only motor oil super-refined by the Alchlor Process for modern high-compression engines.

- Controls carbon
- Combats corrosive acids, rust and deposits

- Assures lower oil consumption
  - Provides the toughest protective film ever developed in a motor oil
- Available in 3 grades—SAE 10W, SAE 20/20W, SAE 30.

### Christian Science Group Of Canal Point

The fact that God's man is endowed with unquenchable strength and power will be brought out at Christian Science Services Sunday in the Lesson-Sermon entitled "Life."

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (215:12): "Whatever is governed by God, is never for an instant deprived of the light and might of intelligence and life."

The life-giving power of God is also set forth in passages from the Bible including the following (Psalms 27:1-4): "The Lord is my light and my salvation; whom shall I fear? The Lord is the strength of my life; of whom shall I be afraid? ... One thing have I desired of the Lord, that will I seek after; that I may dwell in the house of the Lord all the days of my life, to behold the beauty of the Lord, and to enquire in his temple."

THE *Right* MIX  
FOR EVERY JOB

a castle in the air costs nothing  
—but you can't live in it!

Make your dream house come true! It's easy  
—through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving *automatically*—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity.

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

\* \* \*

*If you want your interest at current income, ask your bank about Series H Bonds, which pay interest semi-annually by Treasury check.*

Choose your own savings goal!

for prisoners is another reason for the budget increase.

Pushing anticipated expenditures to the 10 million mark are plans for a new bridge—Royal Park Bridge in West Palm Beach—which will be financed by a \$1.5 million bond issue backed by gasoline taxes.

Final hearings and adoption of the budget is set for the commission's final meeting in July.

## Asks Clarification Of Sunday Blue Law

TALLAHASSEE — Dallas L. Hostetler, executive director of the Florida State Retailers Association, called on Attorney General Richard Ervin last week and asked some questions designed to clarify 1955 laws which affect Sunday hours of Florida retail stores.

Hostetler said that in amending old laws relating to operating retail establishments during Sunday, the Legislature appeared to have eliminated certain exceptions and exemptions. He asked for a summary of what the law requires a merchant to do or not to do to abide by the law.

One amended section of the Blue Law calls for a \$50 fine for any who carry on business or trade on Sunday, "unless the same be work of necessity." The amendment specifically exempts printing and the sale of Sunday newspapers.

Another amendment says whoever disposes of merchandise on Sunday shall be fined \$50. "In case of emergency or necessity, however, merchants, shop keepers and others may dispose of the comforts and necessities of life to customers without keeping open doors."

"The present law raises many questions among the merchants of our state," Hostetler said.

## New Assistant Mgr. For Fla. State Fair

TAMPA—M. E. Twedell, for the past seven years manager of the Oklahoma State Fair at Muskogee, Okla., has been appointed Assistant Manager of the Florida State Fair in Tampa, it was announced by Manager J. C. Huskisson.

Mr. Twedell, who has already assumed his duties, was manager of a tractor and implement firm prior to becoming manager of the Oklahoma State Fair; he also served as supervisor of the Armament Division of the Tulsa plant of Douglas Aircraft.

Long active in agricultural work, Mr. Twedell assisted in the organization of the Eastern Oklahoma Hereford and Angus Breeders Associations. He also staged an outstanding corn show in connection with his fair and led in the promotion of agricultural activities in Oklahoma.

He will assist Mr. Huskisson in the development and promotion of America's greatest mid-winter exposition, the Florida State Fair.
